**M**etrology plays a vital role for the development of technology, industries, quality products, economy, trade and sustainable society. The recent advancement in various fields such as precision engineering, communication methods, environmental engineering, healthcare & safety, clean energy generation, nano-metrologies have put pressing demands on-- "National Metrology Institutes (NMIs)" for realization of the standards of physical and chemical measurements with highest level of accuracies and traceability to the International System(SI) of units.

The International Conference "**Advances in Metrology (AdMet)**" is one of the major scientific events organized in India once in three years, along with **pre-conference workshops** in selected fields of metrology. This is 11<sup>th</sup> international conference in the AdMet series of conferences which is the flagship event of the Metrology Society of India (MSI). CSIR-National Physical Laboratory (CSIR-NPL), a constituent of the "Council of Scientific & Industrial Research" (CSIR) under the Ministry of Science and Technology, Govt. of India, is the custodian of national standards (NMI of India) and has the mandate to realize, establish, up-grade, maintain and disseminate the measurement standards of physical quantities. Bhabha Atomic Research Center (BARC), Mumbai, is Designated Institute for Ionizing Radiation (IR). IR plays key role in national growth through its immense applications in medical, food, agriculture, energy, security, etc.

The main objective of AdMet series is to provide a healthy platform for metrologists, technocrats, researchers and students of various NMIs, laboratories and institutions to participate and share their knowledge & experience in identified thrust R&D areas and foster collaborations with the fellow scientists from all over the world. Because of the present pandemic condition, AdMet-2022 will be organised in both mode (hybrid), on-line and off-line. AdMet-2022 will

also feature an exhibition where latest metrological equipment, measurement systems and related accessories will be displayed for the benefits of the researchers which would provide an excellent opportunity for the manufacturers and service providers to show-case their products & services to build better customer relations. The organizing committee invites all the concerned researchers, metrologists, academicians, policy makers and exhibitors to submit their research work for presentation.

The AdMet-2022 will be organized in Delhi, the capital city of India, a modern metropolis famous for its historical monuments, architectural grandeur has a rich culture that enchants and fascinates people of all religions and nationalities. The weather condition in Delhi during the proposed dates of AdMet-2022 would be pleasant as it will be rainy season, so greenery would be compelling our delegates to go for site seeing before and/or after the conference.

## DATE AND VENUE

The conference is scheduled from **August 24-26, 2022** with Pre-AdMet workshops on **August 22-23, 2022** on Frontier areas of Metrology at CSIR-National Physical Laboratory, Dr. K. S. Krishnan Marg, New Delhi, India.

## SCOPE

*The following topics will be covered in AdMet-2022 :*

- Fundamental and Quantum Metrology
- Metrology for Mass and Related Parameters
- Length, Dimension and Nano-metrology
- Optical and Radiation Metrology.
- Temperature and Humidity Metrology
- Acoustics, Ultrasound and Vibration
- Time and Frequency Metrology
- Electrical and Electronics Metrology
- Metrology in Chemistry, Certified Reference Materials (CRM)/Bhartiya Niradeshak Dravay (BND)
- Traceability in Measurements
- Industrial and Legal Metrology
- Quality System, Inter-Laboratory Comparison and Accreditation
- Key/Pilot Comparison and Proficiency Testing
- Particulate and Gas Metrology, Environmental Metrology
- Metrology for Healthcare and Medical Devices
- Materials Metrology
- Ionizing Radiation Metrology
- Metrology for Non-Conventional/Alternative Energy Source
- Digital Transformation in Metrology.

This conference includes plenary lectures and invited talks by eminent personalities from all over the globe in addition to contributory papers for both oral and poster presentations. Admet-2022 invites original contributed papers from scientists, researchers, metrologists, academicians, technologists, engineers, students, industrial personals on the aforesaid topics for presentation in the conference. For further details of technical programme, please visit conference website [www.admetindia.org](http://www.admetindia.org)

## GUIDELINES FOR ABSTRACT/PAPER SUBMISSION

All extended papers containing abstract, introduction, experimental details, results, discussion, figures, tables, conclusion, references and acknowledgements etc. on A4 size (210 mm × 297 mm or 8.27" × 11.69") paper (limited to a minimum of 1 full page and maximum of 2 pages) should be submitted before the deadline.

- The paper should be original one and should not have been submitted or published elsewhere.
- The paper should contain original results with definite conclusions.
- At least one of the authors has to register for the conference. One registered delegate is permitted to present one paper only.
- A Co-author cannot and should not register as **Accompanying Person**.
- Delegates are requested to strictly follow the above guidelines. Complete guidelines for paper submission are available at [www.admetindia.org](http://www.admetindia.org)

## PRE-ADMET WORKSHOP/EVENT

**International Workshop** on Building Acoustics and Noise Control (August 22-23, 2022)

**Air-Expo (August 22-23)** : An industrial exhibition named as Air-Expo will be organized as Pre-AdMet 2022 event on August 22-23. All industries, manufacturers (national, international), dealers, etc. are invited to showcase their products, recent technologies used for air quality and emission measurements or in related areas, field and topics. For this event, two stalls are to be booked by one individual participant's company/industry/manufacturer, etc. (Rs. 60,000 x 2 = 1,20,000). For registration, please see "**Stall Charges**" in this brochure. The stall can be kept open until the conference period, i.e. August 26<sup>th</sup> for visiting all delegates of the conference. In addition to this, a company presentation time from each participant's company/industry/manufacturer, etc. will be given on August 23<sup>rd</sup>. Stakeholders from academia, all state pollution control boards, air monitoring agencies and industries are being invited to visit and participate in the Expo.

## TECHNICAL EXHIBITION

There will be an exhibition during the conference. The technical exhibition includes state of art in metrology, nanotechnology and conference related instruments and system etc. This exhibition will provide an opportunity for the industries to exhibit their products to the scientific and metrology community.

Each stall will be of 3 m × 3 m size with required lighting and furniture facilities. The exhibition will have maximum of 20 stalls which will be allotted on first come first serve basis. Exhibitors are entitled to a 25% discount on additional registration for their employees in addition to one free delegate registration.

## STALL CHARGES

Discounted upto 31 <sup>st</sup> July, 2022	-	US \$ 1,500 / Rs. 60,000/-
Regular after 31 <sup>st</sup> July, 2022	-	US \$ 2,000 / Rs. 75,000/-

### Note :

1. Each stall will be of 3m x 3m size (above charges are for each stall with 2 delegate's registration free).
2. Security will be provided through CCTV camera and guards in the exhibition sight at night.
3. Two chairs, 1 Table and one electricity connection with one extension board will be provided.
4. The list of the sponsors, exhibitors and advertisers will be displayed on AdMet-2022 and MSI websites for one year.
5. GST will be extra for Stall, Sponsorship, Advertisements and Registration charges.
